# Esca Drink Table

Esca, derived from the Latin word for lure or bait, are the small luminescent organs at the tip of the dorsal ray of female anglerfish. This luminous anatomy acts as a lure to attract prey.

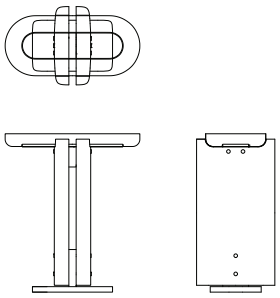

The Esca Drink Table expresses fluidity through cast glass above cast mineral, much like an ocean floor.

Available in Clear and Suede collection cast glass and all cast mineral colors, as well as other hues in cast glass and cast mineral as custom.

Top and base elements are supported by a solid, precision-milled aluminum frame structure.

Detail at top right: shown in Clear Cast Glass Top with Andalusian Cast Mineral body and Pale Basalt milled aluminum frame.
Detail at bottom right: shown in Sude Cast Glass Top with Moonscape Cast Mineral body and Lucent milled aluminum frame.
