

Refractory

H. HER.SCN.01

Specifications

Dimensions	in	cm
Length :	25.75	66
Width :	9	23
Height :	4	11

Weight 40 lbs

Materials	Finishes
Cast Bronze :	Wishbone
	Polished
	Natural
	Leather
	Otter

Shown in Natural patina on exterior and Wishbone patina with rub-backed bronze highlight on interior.

Heretofore Sconce

The Heretofore edition brings the notion of a trough of light together with a hand-chiseled texture in sculptural bronze. Heretofore, of course meaning “until now,” is an abstract concept about the reality that “now” is a constantly moving marker. At what moment does something transition from “until now” to “now”? The until-now moments that are ahead of us are contemplative as well. Heretofore is about holding light rather than directing it, merging sensitive texture and white patination into somewhat industrial troughs.

The Heretofore Sconce is a cast bronze trough with our Wishbone patina, rubbed back to reveal an intricate web of natural bronze highlights. An inverted cast bronze vessel floats in the center casting indirect light off of the textured trough.
